Using the College & Career Readiness (CCR) Worksheets: Ventures Level 1

The purpose of the CCR Worksheets is to build critical thinking skills and use informative texts to help master complex CCR Standards. They specifically address

**CCR Anchor 9**: Analyze how two or more texts address similar themes or topics to build knowledge or to compare approaches the authors take.

The CCR worksheets enable students to:

- **Cite Evidence** by responding to TDQs and citing evidence to demonstrate comprehension of non-fictional texts
- **Identify and use Academic Words** that appear in formal texts (spoken and written)
- **Promote practice of Academic Language**
- **Develop Critical Thinking Skills** by comparing and analyzing two or more articles on the same topic (CCR Anchor 9).
- **Build Knowledge** by having students write expository texts such as compare/contrast, summary, opinion, argument, problem/solution to demonstrate comprehension. (Levels 3 – 5)
