Changing lives, one word at a time.

Warm Up:

- As a pair or trio:
 - Look through recent photos on your phones
 - See if you can find any places (or ideas for related places) where a tutor could potentially go on a field trip with a student

Review:

How does going on field trips fit with what we know about working with Adult and/or English learners?

Adults are
Independent learners

Learners need to build relationships
and trust with tutors

Adults need to maintain motivation
given other life demands

Learners benefit
from visuals

Learners need to do
and practice
