Engaging Adult Learners Through Technology

Heather Tebbenhoff, Tutor Recruitment & Storytelling Specialist

Thursday, October 25, 2018

Questions to start:

- What technologies do you personally use?

- What technologies, if any, are you using with your student(s)?

- What are your apprehensions with technology?

- Do you know what technologies are available in the LVCA office?

- What are you hoping to take away from this session?

Why incorporate technology?

- Increases student engagement and motivation

- Offers mobility

- Teaches students valuable skills

- Promotes student independence

Adults, Computers, and Problem Solving

- [2015 Report from Organization for Economic Co-operation and Development (OECD)](#)
  - Almost a quarter (24.3%) of the people in the study don't know how to use a computer.
  - Almost another 10% (9.6%) refused to take the computer test at all, preferring to take the paper-based assessment.
  - Almost 5% (4.7%) of adults failed the basic test, which included using a mouse or scrolling through a web page.

Distribution of Computer Skills Among People Aged 16–65

Legend:
- Level 3 (strong)
- Level 2 (medium)
- Level 1 (poor)
- Below 1 (terrible)
- Can't use computers

Categories: USA, OECD average, UK, Australia, Germany, Canada, Netherlands, Scandinavia, Singapore, Japan

NNGROUP.COM NN/g

Labour force participation rates among adults who reported having no experience in using digital devices are **15 percentage points lower,** and their **wages are 6% lower,** compared to adults who had basic problem-solving skills using digital devices.
-15 pp ↓   ↑ +6%

pp = percentage point

+9%

Workers who **use digital applications,** such as e-mail, **frequently** in their jobs **earn 9% more** per hour, on average, than workers who are equally proficient in literacy, numeracy and problem solving, have attained similar levels of education and work in similar jobs, but who rarely use them.

DIRECTORATE FOR EDUCATION AND SKILLS)))OECD

Basic Activities – Computers

- Computer Basics Workshops at Northside Library, Mondays 7PM

- [Basic Computer Skills Curriculum](#)

- [Basic Computer Skills MOOC](#)

- Word Processing, New LVCA Class

- Typing

- Web Browsers

- E-mail – Gmail, Yahoo, Hotmail

MOOC

MASSIVE There may be 100,000+ students in a MOOC.

OPEN Anyone, anywhere can register for these courses.
